

Think Like a Citizen Scientist Live Online Workshops, April 2020

All Levels!! Looking for a journey workshop from the **comforts of your own home and backyard?** Engage Thru Tech is offering **the Think Like a Citizen Scientist as a Live Online journey option** this spring! Combine your passion for the outdoors with science and technology... AND earn a journey along the way! Participate in a squirrel count, collaborate with NASA to compare satellite images with current cloud and terrain data, and help spread the word about issues related to the environment! The entire journey is completed!

- **April 18, 2020, from 10:00am to 4:30pm, OR**
- **April 25, 2020, from 10:00am to 4:30pm, OR**
- **April 26, 2020, from 10:00am to 4:30pm**

What is a Live Online Workshop?

A live online workshop is similar to, but better than, a live webinar! It is a way for Girl Scouts to connect and **complete a journey without leaving their homes!** Each Girl Scout, seated at her own computer in her own home, connects securely and privately on line with other scouts for a discussion and collaboration that we facilitate. Older girls also remotely access our computers in order to use our software to complete their take action project with their "team." Younger girls are guided through an at-home, take-action project! **Full tech support start to finish** is supplied by Engage Thru Tech!

Additional Notes:

Price per girl is **\$62 per girl**. We will walk each participant through a "dry run" of connecting to the webinar prior, and all webinar schedules will include lunch and movement breaks. There must be an adult on hand with the girl before and during the workshop for the internet aspects of the workshop. Girls must have access to a computer that can connect to the internet, and phone that has data. The phone needs to download a simple app (which we will show you how to use) for the data collection time, which will be done outdoors (in your "back yard" or other outdoor space). Data rates may apply. **Registration deadline is April 3, 2020, or capacity.** Financial assistance may be available through GSWW for those who qualify.
